Conservancy of villages in the Hesserghatta catchment

—a—

By Genl of the Bg: Comr: of the Bangalore Distt was required to introduce the Sanitary Rules into all the villages in the Hesserghatta catchment and to submit for orders of the Govt: in the P.W.D a statement of any special establishment required for the administration of those Rules in the villages concerned

(2) The Rules having accordingly been introduced, the Bg: Comr: applied for an establishment consisting of 2 sweepers on b/-

Subd to the secy.

There are at present two sweepers on Rs 6 each and an overseer on Rs 12 for the Conservancy of three villages in the Hesserghatta catchment. The Senior Surgn Contract from whose letter has been sent by the Chief Engineer is in favour of a certificated Sanitary Inspector. The Commr is of opinion that for the simple work of removing the rubbish and keeping the streets clean such a costly hand is unnecessary and that with one more sweeper the Conservancy can be efficiently managed. The hands having been sanctioned only in Sept last, I think the proposals for any change or increase may wait for sometime, say, till the end of June next.

In Serial 8 the cost was ordered to be debited to Distt Funds

Government proceedings No. Gl. 3206- Legis. 16. dated the 29th August 1898, Sanctioning with remarks the issue of rules framed under the Village Sanitation Regulation I of 1898.

Order thereon. No. 32 Dated Bangalore 5 January 1899.
D. 66

The Deputy Commissioners of Districts are requested to bring into operation the Village Sanitation Rules published with Order No. 3206- Legis. 16 dated the 29th August 1898 in all Municipalities in their Districts other than the cities of Bangalore and Mysore, in the manner prescribed by the said order.

2. The Deputy Commissioner of the Bangalore District should arrange to introduce the rules immediately into the villages of Kakol Byata, Sonnenhalli, Chirasandra and Kukkanhalli, Kodihalli, Kolloduhalli, Karalandra Palya, Chellaghatta and Shanbhoganhalli in the Hessarghatta catchment, and he should submit for the orders of Government in the D.P.W., a statement of any special establishment required for the administration of the rules in these villages. He is requested to give his earliest and close attention to the publication and enforcement of the rules in the villages named above.

Sir,

With reference to para 2 of Government

(Sl 66) Proceedings No 32 D.H. of the 15th January 1899 —

directing the introduction of the Village Sanitation

Rules into certain villages of the Hessarghatta

catchment & calling for a statement of any

special establishment required for the

administration of the rules in those villages, I

have the honor to state that the Rules have

been introduced into the villages in question.

For the enforcement of the rules it is found

necessary to employ 2 sweepers on Rs: 6/- each per

mensem for the villages of Kaikal, Byrata and

Sonnenahalli and an Overseer on Rs: 12/- per month

for the supervision of all the wells into which

the Village Sanitation Rules have been intro...

I therefore, request that you will be so good as to obtain the Sanction of Government for the entertainment of the above establishment.

2. It appears that the water from the Jodi village of Kamakshipura, a little above Sirisandra, drains directly into the Hessaraghatta tank and so the Village Sanitation Rules have been introduced into that village also.

be met from the funds at the disposal
of the Municipal or District Fund

Government Proceedings N. 3206/216
dated the 29th August 1898. But it
appears to me that this item of

that the establishment is more for

the Conservancy of the tank and its surroundings than for the sanitation of the villages concerned.

Sir,

With reference to your docket No. 3939 dated the 22nd September last, C.F 18-99 I have the honor to state that the special establishment maintained by the Public Works Department is solely for the conservancy of the Hessaraghatta tank, and that maintained by the Revenue Department is for the sanitation of certain villages in the catchment area of the said tank. The amalgamation of the two establishments is not desirable as many grounds. The conservancy of villages & and grounds attached thereto is better attended to by the Officers of the Revenue Department who have certain influence over the villagers, whose aid is necessary for the due enforcement of the rules.

The Executive Engineer, Hessaraghatta water

Water Supply Division to whom the Question was referred is also of the same opinion. A copy of docket No. 2010/1067 dated 6th Ultmo received from that officer on the subject is herewith forwarded for information.

2. I beg to state that in accordance with Government Proceedings No. 3206 Legis 16 dated the 29th August 1898 the charges of the Establishment in question will be met from the District Funds. The necessary provision will accordingly be made in the Revised District Fund Budget of the current year, to be submitted to Government later on.

regarding the amalgamation of the establishment sanctioned by the Government for the purposes of sanitation of the villages lying in the catchment area of the Hesserghatta Tank with that of the Department Public Works

---

Has the honor to reply that the undersigned is of

opinion that the amalgamation of the Special establishment referred to in the above docket with that of the Department Public works, which is maintained for the Conservancy of the Cantonment area is not likely to be attended with beneficial results. The Amildar has naturally more power and influence over the villagers whereas the Public works Department has little or none. If the Public works Department could always count upon the moral support of the Amildar, it would no doubt be feasible to work the two establishments together, but a much more satisfactory arrangement both in the interest of the Government and the ryots would be for the Revenue Department to have the establishment working under its own orders. The ryots will co-operate much better when they know that the staff is working under the orders of the Amildar.

The Amuldar however suggests that as there are only 2 sweepers for the 3 villages of Kakol, Byata and Sonnenahalli, an additional sweeper may be very useful in maintaining these villages clean and tidy. As the supervision of the sanitation of these villages does not require any professional and technical knowledge but needs only
